110mm Barrel-Grip Jigsaw

CJ110MVA

HITACHI
POWER TOOLS

- Powerful 720W motor
- 4-stage orbital cutting action
- 26mm stroke
- Maximum cutting capacity in wood: 110mm
- Non-slip handle and ergonomically positioned controls for precise and accurate operation
- Rugged nickel-plated cast alloy base plate
- Quick release blade change system
- Removable dust extraction adaptor can be connected to an external dust collector for a cleaner work environment and to maintain good vision of the blade
- When dust extraction not being used, a built-in blower redirects airflow from the fan and blows dust away from the cutting area
