

229 Series Telescoping Gages with one telescoping arm

1/2-6" / 13-150mm

- Features a handle, one rigid contact arm and one spring-tensioned telescoping contact arm

Telescoping Gages

Starrett telescoping gages are used for determining the true size of holes, slots, and recesses up to 6" (150mm). The ends of both contacts are hardened and ground to a radius to allow proper clearance on the smallest hole the gage will enter. These tools must be slightly "rocked" in the hole being measured to ensure that the tool is on the proper diameter before it is locked and withdrawn. The final hole size is obtained by measuring over the gage contacts with a micrometer.

229 Telescoping Gages

Range		Handle Length		Catalog No.	EDP
Inch	mm	Inch	mm		
1/2 – 3/4"	13-19mm	2-3/8"	60mm	229A	50923
